

InPRO[®] DCOI

Treated Wood Utility Poles

Koppers provides essential products for utility companies and fundamental infrastructure.

InPRO[®] DCOI is an organic oil-borne preservative for utility poles. DCOI is an AWPAs standardized preservative with an appearance similar to pentachlorophenol.

Benefits of DCOI

- *Suitable for wood utility pole and crossarm applications*
- *Backed by extensive stake test data (28 yr study by Electric Power Research Institute)*
- *US EPA registered preservative system*
- *Appearance has a pleasing brown color similar to pentachlorophenol*
- *DCOI is not a restricted use pesticide (General use pesticide)*
- *50-year limited warranty*
- *Effective against wood decay and termites*
- *American Wood Protection Association (AWPA) P39 standardized preservative*
- *Easy climbing*
- *Low to no odor*
- *Available in liquid or solid form as InPRO-23 or InPRO-50*
